KALTENBACH KF 1606 USED PLATE PROCESSING MACHINE

WHAT'S IN IT FOR YOUR WORKSHOP?

The Kaltenbach KF 1606 Plate Processing Machine is designed to streamline and optimise the fabrication process, offering a comprehensive solution for cutting, drilling, and marking steel plates with unparalleled precision and efficiency.

Boasting a range of features that redefine plate processing efficiency, this machine introduces multi-process capabilities by integrating cutting, drilling, and marking functions. This holistic approach eliminates the need for multiple machines, reducing handling and streamlining the entire plate processing workflow.

TECHNICAL DESCRIPTION

- Year 2008
- Drill Spindle 1 Drill with Tool Changer for 4 tools
- 1 Plasma cutting unit Hypertherm HPR260
- 1 Oxyfuel cutting unit
- Max Drill Size 8 - 50 mm (up to 2,000 rpm)
- Max Plate dimensions 1,600 x 6,000 / 6 - 60 mm thick
- Operation Voltage: 400V 50Hz
- Power - 3 phase 50Hz
- Donaldson Filtration - Dust Collector Model - DFPRO 4

TERMS AND CONDITIONS

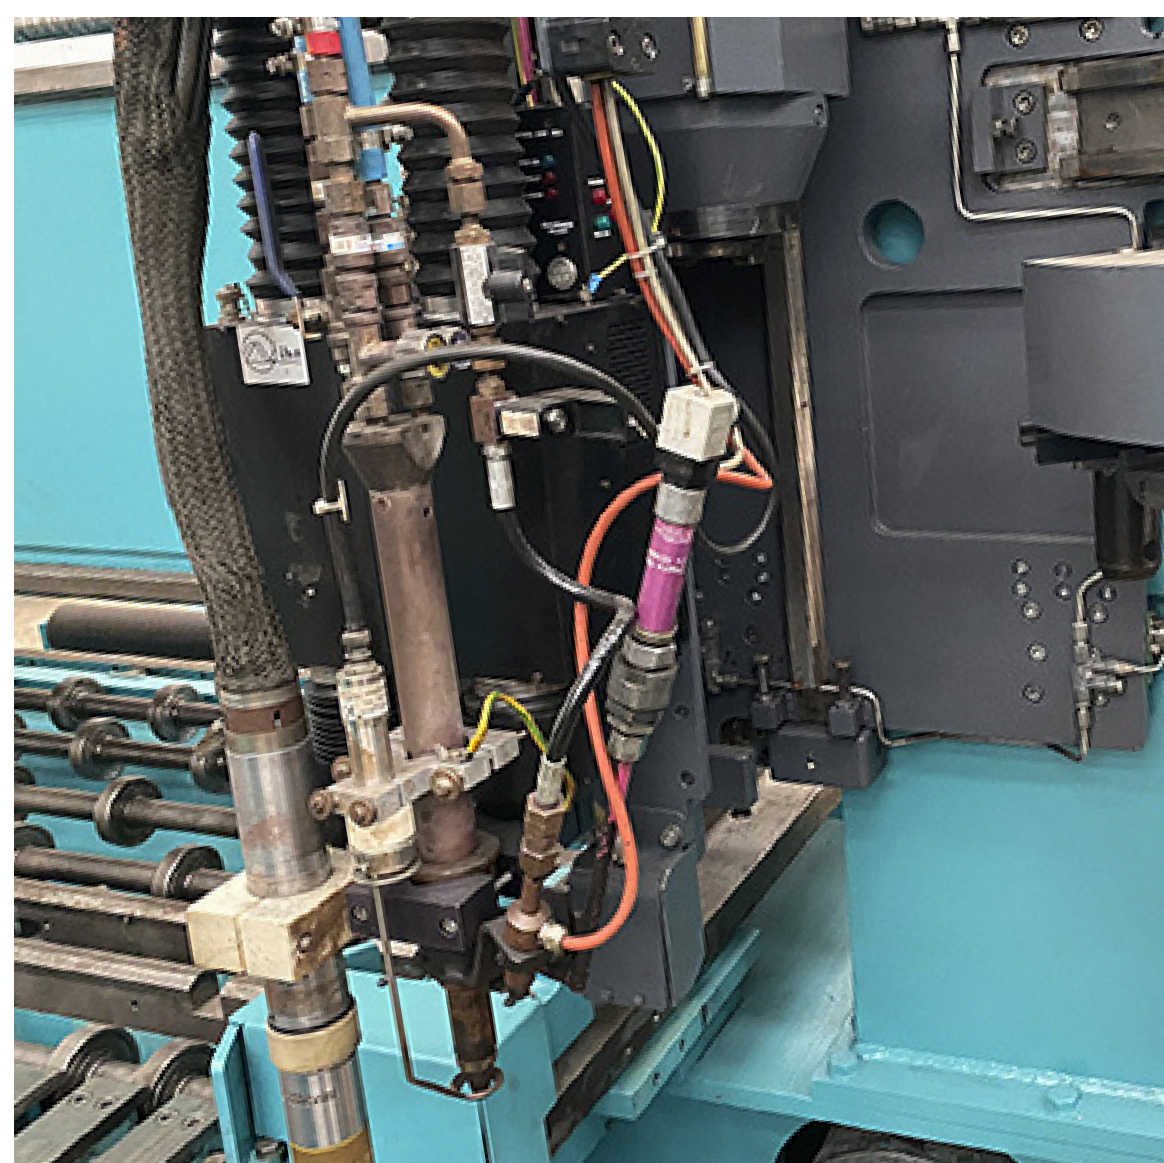

- Machine subject to prior sale
- Payment: 50% with the order + 50% before loading
- Delivery: immediately EXW (As Pontes - Spain)
- Warranty: Used machine, no warranty
- Transport: Not included

OTHER IMPORTANT INFORMATION

- The price does not include disassembly nor assembly. This is an additional service we offer
- Flights and travelling costs + hotels for our technicians borne by the customer
- The machine is in very good condition, revised by the USM team, can be inspected and can be seen in operation
- **This quotation is valid for 2 weeks.**

PRICE

EUR 300,000.00 EXW
