Reliable Machinery
Global Service 

KALTENBACH KKS 401 USED FULLY AUTOMATIC SAWING LINE

WHAT'S IN IT FOR YOUR WORKSHOP?

With advanced sawing technology at its core, the line ensures flawless and precise cuts that meet the most stringent quality standards. The integrated material handling systems streamline the entire production process, reducing manual intervention and minimising downtime.

Equipped with intelligent control systems, the KKS 401 optimises cutting operations and provides real-time monitoring for enhanced accuracy and efficiency. Its flexibility caters to a wide range of cutting needs, making it suitable for varying steel profiles and diverse project requirements.
